THE FINEST IN EDUCATIONAL MICROSCOPE CARE, REPAIR, AND SALES

A NEW CATALOG FORMAT

Over the years the way the science supply business has worked is to send out massive quantities of catalogs to you the science teacher. This would thus enable us to receive your orders and allow us to continue and hopefully grow our business. This process has become somewhat abusive in terms of our natural resources because of the great amount of paper that is wasted due to over-shipment of catalogs. That "cry" has been heard loud and clear, here at The Scope Shoppe! To help conserve our world and still advertise what it is we do and sell, we at TSSI decided the rules would have to change!

We tried a "handbook" type catalog for our last publication, one catalog being sent to each junior high and high school. We found that this book was usually misplaced. A very frustrating waste of paper in our eyes.

We are now offering you a Reference File Folder as our current catalog format. This folder will fit neatly into your file cabinet, ready for your fingertip reference. This catalog will not only not get lost, we made it so we can replace individual pages or brochures, as products and prices change. Instead of replacing the whole catalog. If you do indeed file this, as the ready reference that it is, this will save money while conserving our precious natural resources. TSSI can in turn, as volume dealers in student microscopes and video microscopy systems, offer you a better price. It seems that this is a win, win situation!! So, if you would PLEASE CALL 1-800-577-2673 TO REQUEST YOUR COPY OF OUR NEW CATALOG!!

We at TSSI feel that we have at least tried to do something in our little part of this world to help. I hope you agree. Keeping our Catalog/folder in your file drawer proves it to us and we thank you!

We are in business to serve you, the Science Educator. We are most appreciative of your business and remain at your service.

Sincerely,

Patrick S. Schlinder
President
